

# A collaboration solution for today's educators and learners

The world of higher education is rapidly changing. It's more important than ever to provide educators and students with the right technology at the right moment to support the way they teach and learn today. That's why universities across the globe are leveraging a collaboration solution to unleash the power of frictionless learning.

## The power of GoToMeeting

A trusted industry leader delivering a secure collaboration solution to customers around the world, GoToMeeting enables HD video, web conferencing and screen sharing for more than 56 million meetings per year.

Every month, more than three million people rely on GoToMeeting for their business-critical needs, including the University of Southern California and Florida State University.

---
