

# GoToWebinar for Mobile Devices

Being away from your computer doesn't mean you can't still present online events that matter. When you use GoToWebinar on your mobile device, you can present captivating sessions that build brand awareness, generate qualified leads and connect you to your target audience from anywhere – all from your phone or tablet.

## Key benefits

- Increases mobility and convenience
- Easy-to-use, intuitive features
- Works on your preferred mobile device
- Free for webinar attendees

## Why GoToWebinar on mobile

### Present from your iPad or Android device.

Sometimes, being in the office just isn't an option. With the latest GoToWebinar mobile app, you can still reach and engage your audience, even when you're away from your desk.

**Reach your audience anywhere.** With our highly rated mobile app, your attendees can participate in your event while on the go.

**Share your webcam on iPad.** Personalize your presentations and share your webcam with all participants.

**Chat with fellow organizers and panelists.** Easily manage your event and chat privately with anyone taking part.

**Get connected before your broadcast begins.** Users can join a webinar and communicate with organizers and panelists before the event goes live.

## Why GoToWebinar

With tools to support you and your team before, during and after your event, GoToWebinar helps ensure you share your expertise – whether it's from your desk or on the go.

**Before your webinar:** Set up email reminders, prepare questions and customize your audience experience to create a branded visual presentation that reflects your organization's identity.

**During your webinar:** Ask questions, take polls, monitor audience engagement and even pass presenter control to your attendees. All of this, plus the ability to share handouts, record your session and see everything crystal-clear with HDFaces.

**After your webinar:** Send surveys, links to your recordings and review reporting and analytics.

## Get the app

Download the free GoToWebinar app on the [App Store](#) or [Google Play](#).
