ShareConnect vs. GoToMyPC Feature Comparison Chart

Looking to understand similarities and differences between the two products? Take a look below to see if GoToMyPC is the right fit for you.

We understand that the two products are not completely identical. However, we want to emphasize the comparable feature functionality in addition to the added offerings present in GoToMyPC.

GoToMyPC has the majority of features found in ShareConnect, such as HD screen sharing and video, file transfer, file editing, desktop and mobile apps. In addition to these features, GoToMyPC offers user provisioning and management, comprehensive reporting, AES encryption, optimized speed and performance in a clean and easy-to-use interface.
