

# Jive for Dental Offices

## Cost Savings

Avoid costly fees for upgrades & maintenance and save money with a robust set of features designed to help your practice communicate better.

## Custom Schedules

Accommodate for regular business, weekend, holiday, and after hours.

## Ease of Use

Easily manage your phone system on the web without having to maintain a PBX or server. Also, easily configure additional lines, users, and locations.

## Patient Experience

See how effectively your team answers and handles inbound calls.

## Mobile App

Stay connected to the office on your own terms using Jive's mobile app and Find Me/Follow Me feature.

## Caller Experience

Intuitively guide your patients, vendors, or insurance contacts through a professional list of options.

## Win and retain patients with Jive's business phone system.

Your phone system is the nerve center of your practice, your lifeline to your patients. With Jive, you can quickly and easily customize your system to suit your practice's needs. Grow unimpeded by technical problems and hardware costs, and serve up a sense of availability and enterprise-grade professionalism to your patients.
