

Your Phone System Everywhere You Need It

Call, chat, and more from your mobile device, desktop, and web browser.

Your phone system should be as flexible and on-the-go as you are. Access your Jive Voice features everywhere you need them with Jive Mobile, Jive Desktop, and Jive Web.

JIVE MOBILE

Take your business communications with you on your mobile device with Jive Mobile. Talk, text, chat, or video conference anywhere, not just the office.

JIVE DESKTOP

Easily access your corporate directory, monitor contacts' phone presence to see if they're available to talk, and reach out to them via voice or chat.

JIVE WEB

With Jive Web, monitor your contacts' availability, place web-based calls, send text messages, and make real-time changes to your phone system.

Select from Jive's suite of collaborative tools—including voice, video, and chat.

Visit jive.com/applications to learn more.

Jive Web Jive's browser-based customer portal and communications hub.

SEARCH CONTACTS

Launch simple searches for your contacts and select go-to phone numbers to include on your favorites sidebar.

WEB CALLS / SMS

Connect with your contacts using their preferred channel. Place phone calls or send text messages through your web browser.

PRESENCE MONITORING

Improve collaboration with HD content sharing. Conveniently display documents to all video conference participants with a simple click of a mouse.

Jive Mobile Jive's softphone application.

VIDEO CALLING

Cut down on travel time and expenses for face-to-face meetings. With Jive Mobile, you can start and receive point-to-point video calls on your device.

Available in the App Store and Google Play.

CHAT/SMS

Chat with other users in your phone network. Send SMS messages from your mobile device, but have them register as coming from your business phone number.

GEOFENCING

Create location-based rules that automatically turn on/off Do Not Disturb and other call rules, depending on if you're in the office or at home.

Jive Desktop Jive's desktop application.

INSTANT DIRECTORY ACCESS

Jive Desktop lets you search your corporate directory contacts by name, organize them into a favorites bar, and add new contacts for easy access.

Available for download to your Mac, PC, or Chromebook at the Chrome Web Store.

PRESENCE AWARENESS

Don't waste time playing phone tag. Easily identify whether a contact is available to talk before you initiate a phone call.

CLICK TO CALL / CLICK TO CHAT

Click directly on a phone number in your directory or web browser to immediately initiate a new call or chat session with a contact.

Transform your devices and desktop computers into an extension of your office phone.
