

# INDUSTRY-LEADING REMOTE ACCESS. EVERYDAY IT CONTROL.

LogMeIn Central is command central for critical IT management

# There's no time for downtime

## Central Platform Features

- A lightweight, easy-to-use tool that is simple to navigate and quick to onboard new employees, contractors, or clients
- Easily extend access to features, services, and rights to users as they need them
- Group users by office, location, or organization to control permissions and computer access
- Remain in control while you're on the go with iOS and Android apps
- Perform maintenance on users' computers without interrupting their work
- Award-winning anti-malware software, powered by Kaspersky Lab, for fast, accurate defense against malware and viruses
- Security you can trust with 256-bit SSL encryption, SSL/TLS standards, intrusion filters, encryption, and offers two-step verification including a LogMeIn Authenticator App
- Support end users outside your day-to-day list with Ad Hoc Support

Drive key business growth while maintaining control with reliable remote access, a centralized dashboard, mobile apps, and much more. If you need to access and manage multiple computers, and ensure your connections are secure, LogMeIn Central is for you.

## Fast, secure remote access

Rely on the #1 remote access tool for small businesses to manage multiple computers. All you need is an Internet connection to connect where, when, and how you want.

## A new level of business productivity

Empower remote workers and your customers to get their work done, no matter where they are, with the ability to access files and applications, transfer documents, and remote print. Have more than one screen? No problem. LogMeIn now offers multi-monitor display.

## Mission critical for IT departments

With One2Many Automated Task Management, Windows updates, and advanced alerts and monitoring, it's never been easier to take control of critical IT tasks. Central Premier is powered by Kaspersky Lab so you can consolidate your IT automation and security tools into one.

## Trusted by the world's leading companies

***"It's all about the connectivity. We looked at a lot of other competitors but with remote connectivity hands down LogMeIn is the best and has always been working fantastic for us. That's why we've always been committed to LogMeIn."***

– Michael Chen, CEO, CSP Networks

ESTÉE LAUDER
